

TO WHOM IT MAY CONCERN

I wholeheartedly recommend **Saumitra** as a **Backend API Developer**. He's been invaluable at Datadays from **21 Aug 2023** to **02 Dec 2023**, demonstrating exceptional expertise in Node.js for crafting robust APIs. His code is efficient, well-organized, and exceeds performance and security standards.

Saumitra excels in handling complex challenges with creativity and elegance, positioning us well for high production loads. He's a dedicated learner and an asset to any team.

Saumitra's dedication to the field of backend API development is evident in his continuous learning and willingness to embrace new technologies and best practices. He has been a valuable mentor to our junior developers, sharing his knowledge and insights generously. I am confident that Saumitra's skills, work ethic, and commitment to excellence make him an asset to any team or project he joins.

I recommend Saumitra for any backend API development role. He has the expertise and determination to make a significant impact on any organization fortunate enough to have him on board.

Should you require any further information or have any questions, please do not hesitate to contact me at **piyush@datadays.in**.

Sincerely,

Piyush Agarwal
Head of Data
DataDays India
Entity of Aggralious Technologies Private Limited
